

COMICCRAFTAI

PROJECT MILESTONES

MILESTONE 1 – PROJECT IDEA

The ComicCraftAI project concept was finalized after brainstorming and idea evaluation.

MILESTONE 2 – REQUIREMENTS

Functional, non-functional, software, and hardware requirements were identified.

MILESTONE 3 – SYSTEM DESIGN

System architecture, data flow, module design, and UI design were prepared.

MILESTONE 4 – BACKEND DEVELOPMENT

The FastAPI backend and application routes were developed.

MILESTONE 5 – GEMINI INTEGRATION

Gemini was integrated for comic outline, narration, dialogue, and image prompt generation.

MILESTONE 6 – IMAGE GENERATION

Hugging Face inference was integrated for generating comic panel images.

MILESTONE 7 – COMIC LAYOUT

The generated text and images were combined into a structured comic layout.

MILESTONE 8 – PDF GENERATION

The PDF export functionality was implemented.

MILESTONE 9 – TESTING

The application was tested using predefined test cases.

MILESTONE 10 – DEPLOYMENT

The application was prepared for deployment as a web service.

MILESTONE 11 – FINAL DOCUMENTATION

The final project documentation and demonstration materials were prepared.
